4G/5G Connection availability & performance are subject to network coverage .

Accessories to distribute the Internet & WIFI in your home

These PLC adaptors (Power Line Communication) make it easy to distribute the Internet connection from your Fibre Router to other rooms & locations in your property by "injecting" the internet connection into the electricity network.

Depending on the chosen model, these devices expose LAN network ports that are ideal for connecting TV Streaming devices such as the Dune HD, PCs etc., for better performance as well as a WIFI Access Point to connect to Wirelessly.

- Ask for latest prices, availability & more accessories in our Store or check our **Online Shop**

Business Class Fibre Optics Packages:

For those who require a high performance Internet connection for Business or mission critical environments offering guaranteed speeds and faster SLA's.
